

TAMPERTRONIK

TAMPER EVIDENT MADE SIMPLE

TamperTronik is a manual station for **Tamper Evident labels application**. Easy to use with minimal training, it is **the right solution to ensure accurate and fast labelling of pharmaceutical products**.

Ultra-compact unit which can handle a **wide range of carton sizes**, to speed up the implementation process.

The manual process is especially useful for safe handling of fragile products or for small production batches.

SPECIFICATIONS:

- Designed to work with different carton sizes (mm): up to W 300 x H 200 x D 200 mm.
- Maximum labels dimensions 40 x 40 mm.
- Mechanical micro switch for both transparent and opaque labels.
- Power supply 230V/50Hz/10A.

FUNCTIONALITIES:

- The adjustable guides help positioning the products ensuring correct alignment of the labels.
- Once the case is positioned, the operator simply has to slide it over the label applicator, first on one opening side and then on the opposite one.
